# Dr. Haug's Message

Welcome to February! This is our long, gray month of Winter where we are caught between the return from Winter Break and the expectation of the coming of Spring. This is also the month where many of our students dive into deep learning in each of their subject areas. Grit, perseverance, patience and a sense of humor are all themes for the month of February!

One of the things we look forward to in this month is partnering with our CMS/PKMS PTO as they sponsor another one of our all-school assemblies from the Relevant Speaker

Network that focuses on developing good character. This month, the band "Attaboy" will come to our middle schools to share their experiences of taking a stand for what is right. The core of their message is about decisions; not judging others based on appearance, rejecting negative labels that others might give you, standing up to peer pressure, and not letting your past define who you are. Through the medium of music, something that all pre-teens and teens connect with, they bring a positive message to our students. We have had them in the past and have had very positive reviews from our students.

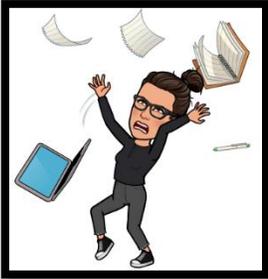

As many of you know, we recently administered the Fastbridge *aMath* and *aReading* assessments to our students. Fastbridge is more closely aligned to the state standards than the MAP assessment was. It is our goal that we will receive more "real-time" feedback from these assessments so that our teachers can make adjustments to instruction for classes, as well as more closely target in-class intervention areas for students who struggle with specific standard areas. With this being our first administration of this assessment system, we will be studying the reports that we receive to determine how best to organize and use the results. Unlike MAP, we will not be sending home reports from these screeners. As we gain more experience with the assessment system and its reports, look forward to more information being shared with families.

Finally, the other thing that February tends to bring is transition weather where we have more rainy/sleety days. Please follow our drop-off / pick-up patterns so that we can ensure the safety of our students. We ask that families do not enter the bus loop drive on the north side of the building. Dropping students off in this area is not only hazardous for your child, but for the busloads of children entering this area. Your support in the safety of our building is greatly appreciated.

## The Struggle is Real!

In Dr. Haug's message to families this month, he highlighted the importance of grit and perseverance. These qualities are an important piece of becoming well rounded individuals. How does one instill these traits into a student who is unmotivated to do homework? If you are one of the lucky parents who witness the homework struggle every night, I am here for you! I know that conflict over homework can cause an unhappy household. In response, I have listed my top tips for helping families battle lack of motivation regarding homework.

1. Be sure to set aside a specific time for homework.
2. Be present when your child is completing his or her homework so they can ask you questions. During this time keep yourself busy by doing chores in the general area or completing your own work. Hey, grownups have homework sometimes too!
3. Eliminate distractions like TV, chatter, and play.
4. Require your child to use some type of assignment tracking system and review it with them each night. Do not take "I don't know" as an answer when asking about assignments. If your child truly does not know or understand, they can reach out to a classmate, view the assignment in Canvas, or contact their teachers.
5. Create incentives for homework completion or positive attitude towards homework for your child. Incentives like telling kids that they will get one big reward at the end of a grading period is a common mistake parents make, as the habit for completing homework has not been developed yet. To build this habit, start off by setting a small, short term goal, then work up to larger goals. For example, the goal could be to complete all homework for the next school day, or to not complain when doing homework. Meeting these goals could be rewarded by allowing the student to have time playing video games that he or she may not normally receive during the week. Once this goal is being met regularly, move to a weekly goal, then monthly, etc. Note: Be sure the incentive is something your child is interested in!

## **News from Nurse Lauren Sak**

Hello! My name is Lauren Sak. I am the new School Nurse at Prairie Knolls. I live in Marengo with my husband and two kids. I have two boys, 5 and 2. They keep me very busy! I love to read, crochet, and to be outside when the weather is nice. I have been a Registered Nurse since 2011. I am new to school nursing, but have experience in public health nursing and Neonatal Intensive Care. My passion is working with kids. I have met some of our students, parents, and staff and look forward to meeting even more! I am so excited to be joining this great team!

### **DENTAL REMINDER FOR GRADES K, 2, 6, & 9**

The state of Illinois requires all students who are in Kindergarten, 2nd, 6th, & 9th grade to have a dental examination completed and on file in the health office by May 15th. The dental examination must be completed within 18 months prior to the 05/15/20 deadline. If you have not already done so, please send in the completed examination form to the health office as soon as possible. The dental form can be found here: <https://central301.net/health-services/health-requirements/>

### **Community Information**

In an effort to make communication more efficient and effective, District 301 has created a Digital Bulletin Board page on the district website. All approved flyers will be posted under “Communications” on the main district page or at this link:

#### **Digital Bulletin Board**

### **Food Service Department Positions**

The Food Service Department is looking for staff members and substitutes. We have part-time permanent and substitute positions available that range from 4-6.5 hours per day. Most shifts end between 1:30-2:00pm. If you are looking for a position in your community that allows you to be at work while your child is at school, this might be the perfect job for you. In addition, Food Service Department staff and substitutes do not work school calendar holidays, breaks, or during the summer.

Apply on the Central301.net web page under District Departments > Human Resources > Non-Certified Position Openings.

Questions? Please contact Pamela Mirenda, Food Service Director, at 847-464-6043 or [pamela.mirenda@central301.net](mailto:pamela.mirenda@central301.net).

**6<sup>th</sup> Graders – Read to Succeed** is a free program that allows students in grades K-6 to earn free tickets to Six Flags Great America just by reading six hours for fun. Please register your student at [sixflags.com/books](https://sixflags.com/books) and use the Prairie Knolls Middle School code: **QNF XB** to record your child’s reading on the website.

Once they have at least 6 hours, or 360 minutes, they will qualify for a free ticket in May. All reading minutes must be logged by April 15, 2020. If you have any questions please contact [pam.inkinen@central301.net](mailto:pam.inkinen@central301.net)

### **KANE COUNTY COUGARS READING CLUB**

This is a reading program sponsored by the Cougars that will begin February 3rd. Students who participate don't just get into one game for free, when they attend the game on May 8<sup>th</sup> they will get a **Golden Ticket** that gives them complimentary admission to ALL June-September games. The program runs for 8 weeks and students need to read at least 1 hour (60 min.) per week. That's just 2 hours (120 min.), over a 2 week period. Information and recording sheets are available in the library or from any ELA teacher.

### **Traffic Pattern**

It has been brought to our attention that recently several of our families are “cutting” the traffic pattern line and having their children walk out to the athletic parking lot after school. Several of our traffic cones have been damaged due to cars attempting to avoid the line, then driving over the cones. We will be replacing these cones and adding additional ones as the year progresses. For the safety of students and other drivers, please follow the established traffic patterns. **Additionally, students will be reminded not to exit the building from Door #26 at the end of the school day.**

### **5Essentials Survey**

Please support our continual improvement, through your feedback, by logging onto <https://survey.5-essentials.org/illinois/> and completing the survey for Prairie Knolls Middle School. We need a minimum of 20% of our families to respond to the survey in order to get results and currently our response rate is at 12%. Your input is valued and used by our school improvement team to set goals for the next school year.

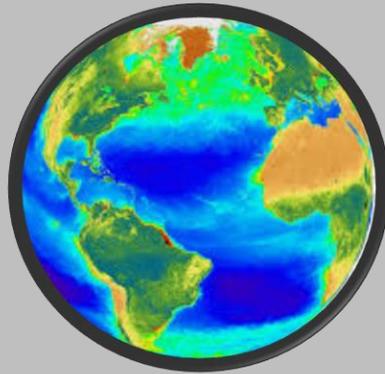

## **Jazz Cafe**

PKMS is hosting its first ever Jazz Cafe. Both jazz bands from PKMS and CMS will be performing. Student tickets will be free. Adult tickets will be \$1 each. All proceeds will go directly to the Middle School Jazz Program. There will be a variety of beverages and food items for sale to enjoy while watching our students perform. Join us for a fun night filled with good food and great jazz music Wednesday, February 26th at 7pm in the PKMS Cafe.

## **Encore Department News**

Greeting from the Encore Hall. I can't believe it is almost February. The Agriculture room this year has been very busy. We created a biosphere in our classroom to represent the water cycle and to show how ground water is filtered. The fish are not in it yet, however they are coming. We are also sending home African Violets every quarter. This quarters' students also have herb plants started. In Technology we created rockets in the fall that ran off of air and water pressure. It was both exciting and a great education opportunity for my students. This quarter we will be building a house with balsa wood. As always, thank you for your interest in Encore! Patricia Brummel

# 6<sup>th</sup> Grade Team News

**ELA-** Hot dogs, and rocks, and bears, oh my! 6th grade ELA has started our newest whole-class novel, *Touching Spirit Bear*. Students will be analyzing symbolism and figurative language, as well as examining how the connotation of words impacts the tone of a text. Students will also be focusing on explanatory writing to support their thoughts regarding different topics in the book.

**Math-** 6th grade math is in their 5th unit about Ratios and how to use them to solve real world problems. Students will be introduced to equivalent ratios, unit rate, plotting and graphing ratios, percentages, measurement conversions, and independent and dependent variables. ***Try a ratio! Want help in the kitchen? We have been adjusting recipes to relate them to ratios. For example, you are making cookies and the recipe calls for 3 eggs, but you only have 2. How do you adjust the remaining ingredients to fit the new recipe? Try having your child adjust ingredients!***

**Science-** 6th grade Scientists blast off in February setting their sights on our “**Earth’s Place in the Universe**” unit with “out of this world” expectations. Did you know that during Summer in the Northern Hemisphere we are further from the Sun than any other time of year and the opposite happens in Winter? Also, the “Dark Side of the Moon” is much more than a Pink Floyd song. As a matter of fact, because of a “wobbling” irregularity in the Moon’s rotation, we see slightly more than half (59%) of the Moon’s surface when illuminated by the Sun’s solar energy. So there really is a “dark side.” Be prepared for some fun discussions during dinner. Your student may try to test your knowledge about Earth’s tilt and why we have seasons.

**Social Studies-**The New Year is here!!!..and as they say...“when in Rome.” Students will learn about Ancient Roman governments, social classes, and daily life while making connections between life in Ancient Rome, Ancient Greece, Ancient China and current day. Rome will thrive for quite some time until “the Fall” which could be attributed to Julius Caesar and his relentless dictatorship. Stay tuned for some interesting dinner conversation and remember “to follow the conventions of the area in which you are residing or visiting”...which is the true meaning of “when in Rome.”

# 7<sup>th</sup> Grade Team News

**Science**- In science we will be finishing up our ecology unit and moving into our cells unit. Students will gain an understanding of how our cells function and everything they do for us. They will learn all the parts in a cell and each job it has, how a cell reproduces, and what DNA truly does for us.

**ELA**- We started our Responsibility Unit learning about Eleanor Roosevelt and the social responsibility she accomplished throughout her life. Students will soon be researching individuals &/or companies who have changed the world for the better showing social responsibility. They will compile and organize their research into a speech which will be delivered late February. This will be their big solo speech for the year and students will spend quite a bit of class time gathering information, making notecards and a visual aid, and practicing. Also, during the month of February, we will continue our read aloud, *Refugee*, by Alan Gratz which highlights three different characters from three different countries and shows how their lives are woven together by chance. Mr. Gratz is a very descriptive and talented writer of which many students enjoy checking out his various novels from the classrooms or the LMC.

**Social Studies**- We will be finishing the Constitution Unit. The Test is February 27, and up until that point we will be working through all 7 Articles of the Constitution, and all 27 Amendments. Students should be studying with their notecards daily, as well as keeping up with all class assignments to ensure they are prepared. Also, the week of the test, there will be optional study sessions before and after school. These dates are available to students already in Canvas. After the test, 7th SS also organizes a Mock Election that the students will be taking part in, and throughout the month we will also be preparing for that.

**Math**- We will be finishing our unit on unit rates and proportional relationships. Students will explore finding unit rate to comparison shop. Unit rate concepts can be reinforced at the grocery store by discussing with your student which products are a better buy, and why you make the shopping choices that you do. We will be working with proportional relationships in tables, graphs, equations and word problems.

**Pre-Algebra** -students will be finishing up their last 7th grade unit on probability. We have been exploring finding the theoretical probability for compound events and conducting experiments to test those values. Our next unit brings us back to algebra with solving systems of two equations with two variables. This unit focuses on writing equations to solve real world problems.

# Falcon Athletics

## 2020 Winter Sports

**Wrestling** The conference season was a success on and off of the mats. Thank you to all of our student athletes and our wrestling coaches, Mr. O'Donnell, Mr. Mariano and Mr. Titock for all of the hard work. The month of February and beginning of March will consist of non-conference matches leading up to the IESA State Tournament. For more information visit [www.iesa.org](http://www.iesa.org). Good luck Wrestlers!

**Girls' Basketball** is off to a fast start! The girls have their conference tournament to look forward to the first weekend of March. Prairie Knolls is hosting the tournament this year on Thursday, March 5th and Saturday, March 7th. We wish them the best for the remainder of the season!

The **PKMS Scholastic Bowl** has officially begun their season! They are currently practicing each week. Their first scheduled home match will take place in February. All home matches will be held at CMS this year. They have their conference meet to look forward to on Saturday, March 7th. Best of luck as they begin their competitions!

## 2020 Spring Sports

### Boys' & Girls' Track and Field

Our last sport of the year is **Boys' and Girls' Track and Field** which begins on Monday, March 16th. All 7<sup>th</sup> and 8<sup>th</sup> graders who are interested in joining the track team should attend the student track meeting that will take place in late-February during lunch. To join the team, students must register on 8to18 and have an up-to-date physical (within one year) on file at PKMS. We hope to see you there!

Below are the general requirements needed to participate in Athletics:

- Physical (within one year)
- Fee (\$100.00 due before the first competition)

**\*Any student who has not signed up on 8to18 or turned in a physical will not be allowed to practice!**

**Don't forget to attend the informational meeting at lunch. More information will be given regarding tryouts and what to expect this season.**
